Appendix A: Social Distancing Protocol & COVID-19 Site-Specific Protection Plan Template updated: April 6, 2021

General Information: This Appendix A "Social Distancing Protocol & COVID-19 Site-Specific Protection Plan" Template applies to all businesses, and combines local with state-level guidance published in the California Blueprint for a Safer Economy.

The State of California requires all businesses to:

- 1. Perform a detailed risk assessment and implement a site-specific protection plan (SPP)
- 2. Train employees on how to limit the spread of COVID-19, including how to screen themselves for symptoms and stay home if they have them
- 3. Implement individual control measures and screenings
- 4. Implement disinfecting protocols
- 5. Implement physical distancing guidelines
- 6. Implement ventilation protocols

As the COVID-19 public health crisis continues to evolve and new Public Health Orders are issued or amended both at the State and local levels, amendments to individual businesses' Social Distancing Protocol-COVID-19 Site-Specific Protection Plans may be needed in order to incorporate new requirements.
