

## Drought: Parks & River Recreation Update

## Strategies to make your river experience safe and enjoyable:

- Beach parking lots can fill by 10 a.m. Have a "Plan B" destination in mind in case a parking lot is full.
- Arrive early in the morning or later in the day for the best chance of finding parking.
- Park in designated parking spots and avoid parking in residential neighborhoods.
- Pack out your trash including food waste, toilet paper, fishing line, rafts and tubes.
- If floating or paddling, check river travel times.
- Be prepared for changes in the weather.
- Dogs on leash OK, and pack out waste.
- River conditions change every year.
